

Outsource to China

Empower China Outsourcing

Founded by a group of Carnegie Mellon Alumni, China Outsourcing Partner (COP) provides out-of-box outsourcing lifecycle consulting and offshore outsourcing management services. The lack of expertise and professional on-shore and offshore management team shut the outsourcing door to a lot of businesses that are interested in outsourcing to China. The same reason also causes high outsourcing project failure rates. As your full outsourcing and offshore lifecycle partner, COP helps companies fine-tune outsourcing strategy, define outsourcing scopes, find quality offshore vendors and manage the whole outsourcing project.

We provide outsourcing services in following areas

- China Outsourcing Lifecycle Management
- China Outsourcing Project Management
- China Market Entry
